It is not enough to have a good idea of what you want to do. You must also have a good idea of how to do it. This is why it is so important to have a good idea of what you want to do before you start to do it. If you do not have a good idea of what you want to do, you will be wasting your time and money. So, before you start to do anything, make sure you have a good idea of what you want to do. This will help you to stay focused and motivated, and it will help you to achieve your goals more quickly and easily.

Ogie 'scared' but in fighting mood

By Romeo B. Garcia

It didn't take long for Ogie Alfrido to get back to his normal self after being hospitalized for a week. The 31-year-old actor, who is currently in a hospital bed, is now able to talk and move around with his right arm.

"I was nervous at first, but now I'm feeling better. I'm happy to be back home," Ogie said. "I'm still a bit weak, but I'm getting stronger every day. I'm grateful for the support of my family and friends."

Ogie's recovery is a testament to his resilience. He was hospitalized for a week after a fall from a ladder while filming a scene for his new movie, "The Last Days of Pompeii." The fall occurred on July 3, 2003, while Ogie was filming a scene in which he was supposed to be carrying a large stone.

Stop execution of two death convicts

JOY LEE

The Philippine government has a long and sordid history of executing death convicts. The last execution was in 1987, when two men were hanged. The government has since promised to stop executing death convicts, but it has not kept its promise. The government has executed several more death convicts since 1987, and it has no intention of stopping. The government has a duty to protect the lives of its citizens, and it has a duty to respect the rights of its citizens. The government has a duty to stop executing death convicts.

Moody's to downgrade RP rating by one notch

By Ronald W. Chavira

MANILA, Feb. 18 (AP) — Moody's Investors Service has announced that it will downgrade the Philippines' sovereign credit rating by one notch, from Baa1 to Baa2. The downgrade is based on the agency's assessment of the Philippines' economic and financial performance. Moody's noted that while the Philippines has made progress in improving its economic and financial performance, it still faces significant challenges, including a high level of government debt and a weak legal and judicial system. The downgrade is expected to increase the cost of borrowing for the Philippines and may have a negative impact on the country's economic growth.

By Dorothy H. Jones

Cooking is an art, and it is one that can be passed on from generation to generation. In the Philippines, this is especially true, as the art of cooking is a deeply ingrained part of the culture. Shaping (tikoy) tips

When preparing tikoy, it is important to pay attention to the shaping process. The shape of the tikoy can affect its texture and how it is served. There are a few tips that can help you achieve the perfect shape for your tikoy. First, make sure that the rice is well-soaked before you start shaping it. This will help it become more pliable and easier to shape. Second, use a small, round object to shape the tikoy. This could be a small ball of clay, a small piece of wood, or even a small metal ball. This will help you achieve a consistent shape for all of your tikoy. Finally, make sure that the tikoy is shaped while it is still warm. This will help it hold its shape and prevent it from falling apart. By following these tips, you can ensure that your tikoy is shaped perfectly and is ready to be served.
